Product name: **AREOALASEED**

Product description:

Seeds conditioning system

Application:

Multi-layer seed coating technology. The technology consists in gradually adding layers containing: fungicides, growth regulators, insecticides, filling substances, adhesives and pigments.

Specific properties:

Due to the proper application of layers in terms of application order and coating weight, we obtain seeds with uniform coating, good seedlings, and ensure excellent condition of plants.

Storage:

To be stored in closed containers i.e. barrels, cans.

Safety measures:

The product is non-toxic, aside from pesticides that should be handled according to the instructions included in their product information sheets. In case of contact with mouth or eyes rinse with plenty of water.

Shelf-life:

If properly stored, the product is durable, in line with the durability of coated plants.

Technical consultation:

Product data sheet does not allow to include all product details regarding its use and effects. In case of any doubts please contact with the producer. We will gladly provide you with advice and answer all your questions regarding the product and its applications.
